

China Lake Campus - Numerical RAC List

Location: China Lake Campus Main Office

CHI 84 Total
RAC Value: \$5,047.41

RAC No.	TITLE <i>(with Edition, Volume and Year)</i>		
1000.02	SKY IS HOME: THE STORY OF EMBRY-RIDDLE AERONAUTICAL UNIVERSITY		
AUTHOR:	McCollister/Davis	Edition:	2ND EDITION
DESC:	The story of Embry-Riddle Aeronautical University.	Pub Year:	1996
		Price:	
1001	POCKET BOOK OF TECHNICAL WRITING FOR ENGINEERS & SCIENTISTS		
AUTHOR:	Finkelstein, L.	Edition:	3RD EDITION
DESC:	Step-by-step instructions for producing the most common technical documents. Offers a relaxed approach focused on providing information in a straightforward, easy-to-understand way, with useful guidance on many critically important, "real world" topics rarely found in other technical writing books.	Pub Year:	2008
		Price:	\$36.26
1002.03	AIRCRAFT TECHNICAL DICTIONARY		
AUTHOR:	Foye	Edition:	3RD EDITION
DESC:	An aeronautics-oriented dictionary with emphasis on technical and maintenance terms.	Pub Year:	1997
		Price:	\$14.95
1003	CAMBRIDGE AEROSPACE DICTIONARY, THE		
AUTHOR:	Gunston, Bill	Edition:	
DESC:	An essential tool for people who must read and understand technical content regarding the aerospace industry and specific aircraft. Also an ideal reference for the engineering and physics student encountering a subject replete with technical jargon and acronyms.	Pub Year:	2004
		Price:	\$75.00
1004	AIR TRANSPORTATION: FOUNDATIONS FOR THE 21ST CENTURY		
AUTHOR:	Gesell & Dempsey	Edition:	2ND EDITION
DESC:	Covers the principal elements of air transportation history, airline economics, business, finance, marketing, regulation, and management.	Pub Year:	2005
		Price:	\$69.00
1005	THE AIRPLANE: A HISTORY OF ITS TECHNOLOGY		
AUTHOR:	Anderson, John D.	Edition:	
DESC:	History of the technology of the airplane.	Pub Year:	2002
		Price:	\$45.00
1006	DESIGN OF THE AIRPLANE, THE		
AUTHOR:	Stinton, D.	Edition:	2ND EDITION
DESC:	Features a number of new studies in practical airplane design	Pub Year:	2001
		Price:	\$50.97
1007	AIRLINE MANAGEMENT STRATEGIES FOR THE 21ST CENTURY		
AUTHOR:	Dempsey/Gesell	Edition:	2ND EDITION
DESC:	Companion to "Air Transportation: Foundations for the 21st Century". Contains suggested trends and strategies that might lead to a renaissance of consistent profitability for the airlines, stable employment for labor, and continuous, reliable and fairly priced air services for consumers. Discusses the principal elements of air transportation history, airline economics, business, finance, marketing, regulations, and management.	Pub Year:	2006
		Price:	\$89.00
1008	AVIATION TERRORISM AND SECURITY		
AUTHOR:	Wilkinson/Jenkins	Edition:	
DESC:	The contributors examine threats and vulnerabilities in light of recent developments in aviation security and consider the prospects for strengthening the response at national and international levels.	Pub Year:	1999
		Price:	\$150.00

1010	ROCKET COMPANY, THE	AUTHOR: Stiennon/Hoerr	Edition:	
	DESC: Fictionalized account of the challenges faced by a group of seven investors and their engineering team in developing a low-cost, reusable, Earth-to-orbit launch vehicle. Excellent introduction to the technical aspects and challenges facing today's designers, entrepreneurs, regulators, legislators, and investors.		Pub Year:	2005
			Price:	\$35.95
1011	SPACE EXPLORATION AND ASTRONAUT SAFETY	AUTHOR: Pelton/Marshall	Edition:	
	DESC: Reviews the history of NASA's space exploration program, its astronaut safety program, the present status of the Space Shuttle and the International Space Station, and the options and strategic opportunities that present themselves as NASA enters its next phase of space exploration with Project Constellation.		Pub Year:	2006
			Price:	\$49.95
1012	SPACE PHYSIOLOGY	AUTHOR: Buckley, J.C.	Edition:	
	DESC: Gives an comprehensive, accurate, and factual depiction of the alterations to human systems that are associated with spaceflight.		Pub Year:	2006
			Price:	\$59.95
1013	MASTERING TECHNICAL MATHEMATICS	AUTHOR: Gibilisco/Crowhurst	Edition:	3RD EDITION
	DESC: A refresher course for scientists, engineers, and technicians. It begins with a review of basic calculation techniques and progresses through intermediate topics in applied mathematics. Contains material on scientific notation, geometry, trigonometry, vectors, coordinate systems, logarithms, exponential functions, propositional logic, truth tables, statistics, and probability.		Pub Year:	2008
			Price:	\$36.95
1014.01	AVIATION INSECURITY: THE NEW CHALLENGES OF AIR TRAVEL	AUTHOR: Thomas, Andrew R.	Edition:	1ST EDITION
	DESC: A compelling critique of the security measures taken after September 11th. The author considers the proposed solutions to the vulnerability of airlines in terms of practicality, cost, and effectiveness, and outlines a better strategic approach for government and the aviation industry to meet new and existing threats while continuing to serve the public in an efficient manner.		Pub Year:	2003
			Price:	\$22.00
1015	NATIONAL SECURITY ISSUES IN SCIENCE, LAW, AND TECHNOLOGY	AUTHOR: Johnson, Thomas A.	Edition:	
	DESC: Examines the acquisition and utilization of all-source intelligence, including the ability to analyze data and forecast patterns, to enable policymakers to make better informed decisions. Addresses reaction and prevention strategies applicable to chemical, biological, and nuclear weapons; agricultural terrorism; cyberterrorism; and other potential threats to our critical infrastructure.		Pub Year:	2007
			Price:	\$139.95
1020	TERMINAL CHAOS: WHY U.S. AIR TRAVEL IS BROKEN AND HOW TO FIX IT	AUTHOR: Donohue/Shaver/Edwards	Edition:	
	DESC: Written with the airline passenger in mind, the authors arm the flying public with the truth about flight delays. Their provocative analysis not only identifies the causes and extent of the problems, but also provides solutions that will put us on the path to recovery.		Pub Year:	2008
			Price:	\$26.96
1029	STANDARD AVIATION MAINTENANCE HANDBOOK	AUTHOR: Jeppesen Maintenance	Edition:	
	DESC: Quick reference guide that pulls together a number of charts, tables, and technical information needed by aviation maintenance technicians. Contents include sections on reference data; basic hand tools; riveting; aircraft materials, drawings, assemblies and installations; and aircraft hardware.		Pub Year:	2003
			Price:	\$15.95
1030	AVIATION MAINTENANCE MANAGEMENT	AUTHOR: Kinnison, Harry A. Ph.D.	Edition:	
	DESC: Explains steps required to plan and implement an aviation maintenance program.		Pub Year:	2004
			Price:	\$59.95

1031	A SOCIOLOGY OF COMMERCIAL FLIGHT CREW	AUTHOR: Bennett, Simon A. DESC: A user-friendly survey of the men and women who labour long and hard at the coalface of commercial aviation - the pilots. The book's purpose is to provide information for managers, regulators and other decision-makers so they can make better-informed decisions.	Edition: Pub Year: 2006 Price: \$99.95
1038	AIRCRAFT DISPLAY SYSTEMS	AUTHOR: Jukes, M. DESC: Overview of the historical development of the civil flight deck and the military cockpit (or crewstation) from the beginnings of manned flight to modern aircraft, highlighting - by specific aircraft case studies - the significant steps in the transitions from mechanical to electromechanical instruments to modern electro-optical displays.	Edition: Pub Year: 2004 Price: \$124.95
1039.2	SERIOUS ACCIDENTS AND HUMAN FACTORS	AUTHOR: Miyagi, Masako DESC: Presents a comprehensive understanding of the accident causation chain, events contributing to that chain, and a method for identifying and eliminating causal factors in a pro-active way.	Edition: Pub Year: 2005 Price: \$83.97
1040.05	ESSENTIALS OF AVIATION MANAGEMENT	AUTHOR: Richardson/Rodwell/Baty DESC: Essentially a reference manual on running a fixed base operation, it includes chapters on marketing, general management, human resources, organization and administration, management information systems, flight operations, safety and liability, maintenance, and physical facilities.	Edition: 5TH EDITION Pub Year: 1995 Price: \$30.55
1041.03	AVIATION & AEROSPACE ALMANAC	AUTHOR: Aviation Week Group DESC: The industry's most comprehensive reference. Each year, The Almanac is updated cover-to-cover with the latest facts, figures and forecasts from the most authoritative sources - - FAA, the National Transportation Safety Board, the Air Transport Association, U.S. Departments of Transportation and Defense, the U.S. Armed Services and more.	Edition: 2003 EDITION Pub Year: 2003 Price: \$119.00
1043	BONFIRES TO BEACONS: FEDERAL CIVIL AVIATION POLICY UNDER THE AIR COMMERCE ACT 1926-1938	AUTHOR: Komons DESC: The first in a series of five historical works, this book provides a history of the development of aviation and related regulations and legislation from 1926 to 1938.	Edition: Pub Year: 1978 Price: \$18.00
1044	TURBULENCE ALOFT: THE CIVIL AERONAUTICS ADMINISTRATION AMID WARS AND RUMORS OF WARS, 1938 - 1953	AUTHOR: Wilson DESC: Second in the above historical series, covering 1938 to 1953.	Edition: Pub Year: 1979 Price: \$19.00
1045	TAKEOFF AT MID-CENTURY: FEDERAL AVIATION POLICY IN THE EISENHOWER YEARS, 1953-1961	AUTHOR: Rochester DESC: The years 1953 to 1961 are reviewed in this third book of the FAA historical series.	Edition: Pub Year: 1976 Price: \$12.50
1046	SAFE, SEPARATED AND SOARING: A HISTORY OF FEDERAL CIVIL AVIATION POLICY, 1961-1972	AUTHOR: Kent DESC: Federal aviation policy and legislation from 1961 to 1972 are reviewed in this fourth volume of the FAA series.	Edition: Pub Year: 1980 Price: \$14.50
1047	TROUBLED PASSAGE: THE FEDERAL AVIATION ADMINISTRATION DURING THE NIXON-FORD TERM, 1973-1977	AUTHOR: Preston DESC: Fifth in the series, aviation development, laws, and issues from 1973 to 1977 are covered.	Edition: Pub Year: 1987 Price: \$14.50

1051	COMMERCIAL AVIATION SAFETY	AUTHOR: Wells/Rodriguez	Edition: 4TH EDITION
	DESC: A comprehensive, up-to-date, and systematic reference on the principles and regulatory practices of commercial aviation safety and security.		Pub Year: 2004
			Price: \$50.00
1052.05	AVIATION GROUND OPERATION SAFETY HANDBOOK	AUTHOR: National Safety Council	Edition: 5TH EDITION
	DESC: First published in 1966, this fifth edition covers airport buildings and fixed facilities, safeguarding passengers in terminals, ramp operations, mobile ground equipment, hangar and shop operations, air cargo operations, fire prevention, hazardous materials and processes, personal protective equipment and guarding, risk management,		Pub Year: 2000
			Price: \$43.95
1053	HUMAN FACTORS FOR CIVIL FLIGHT DECK DESIGN	AUTHOR: Harris, D.	Edition:
	DESC: Addresses the human factors issues pertinent to the design of modern flight decks. Part one examines : the benefits of human engineering; flight deck design process; head down display design; head-up display design; auditory warning systems; flight control systems, control inceptors and aircraft handling qualities; flight deck automation; and human-computer interaction on the flight deck and anthropometrics for flight deck design. Part two is concerned with flight deck evaluation - the human factors evaluation of flight decks; human factors in flight test and the regulatory viewpoint.		Pub Year: 2004
			Price: \$54.97
1054	CONTEMPORARY ISSUES IN HUMAN FACTORS AND AVIATION SAFETY	AUTHOR: Harris/Muir	Edition:
	DESC: Addresses safety issues in flight deck design, aviation operations and training, and air traffic management.		Pub Year: 2005
			Price: \$52.22
1060.05	GLOBAL LOGISTICS: NEW DIRECTIONS IN SUPPLY CHAIN MANAGEMENT	AUTHOR: Waters, Donald	Edition: 5TH EDITION
	DESC: Provides a wealth of useful ideas and practical information on all the current and future trends in logistics and supply chain management. Includes topics such as logistics in China, Central and Eastern Europe; the growing importance of logistics strategies; relationships within the supply chain; and the current dynamics and challenges of global operations.		Pub Year: 2007
			Price: \$57.00
1061	INTERNATIONAL LOGISTICS AND SUPPLY CHAIN OUTSOURCING	AUTHOR: Rushton, A. / Walker, S.	Edition:
	DESC: Addresses the key challenges facing logistics outsourcing and examines the important issue of having to "think global, act local". Includes discussions on global market drivers; regional logistics markets; outsourcing operations and services, including descriptions of major providers; and the management of third- and fourth-party logistics.		Pub Year: 2007
			Price: \$60.00
1062.03	HANDBOOK OF LOGISTICS AND DISTRIBUTION MANAGEMENT, THE	AUTHOR: Rushton/Croucher/Baker	Edition: 3RD EDITION
	DESC: Covers all major elements of modern logistics and explains the concepts of logistics and distribution; planning for logistics; procurement and inventory decisions; warehousing and storage; transport; and operational management.		Pub Year: 2006
			Price: \$61.75
1063	QUANTITATIVE MEASUREMENTS FOR LOGISTICS	AUTHOR: Frohne, P.	Edition:
	DESC: Offers a wide variety of measurement tools and computations used in today's logistics operations, ranging from life cycle costs to maintainability computations. Examines break-even analysis...depreciation methods...forecasting...inventory computations...learning curves...maintenance management...quality control...queuing theory...repair level analysis...statistics...failure definitions...and much more.		Pub Year: 2008
			Price: \$76.46
1072.07	PRACTICAL RESEARCH: PLANNING AND DESIGN	AUTHOR: Leedy/Ormrod	Edition: 7TH EDITION
	DESC: This book is intended for all courses in basic research methodology. It is designed to guide the student from problem selection to completion of a final document.		Pub Year: 2001
			Price: \$46.84

1081	CIVIL AVIONICS SYSTEMS	AUTHOR: Moir/Seabridge	Edition:	
	DESC: Covers all aspects of civil avionics systems including the technology, systems development, electronics, sensors, communication and guidance aids, displays, controls, and systems integration. It further discusses future air navigation systems and military applications.		Pub Year:	2003
			Price:	\$63.57
1093.09	BLACK'S LAW DICTIONARY	AUTHOR: Garner, Bryan A.	Edition:	9TH EDITION
	DESC: A dictionary of legal terms and phrases with pronunciations.		Pub Year:	2009
			Price:	\$67.50
1125	FLYING BLIND, FLYING SAFE	AUTHOR: Mary Schiavo	Edition:	
	DESC: An overview of airline safety at the turn of the century. Focuses on aviation safety problems related to aircraft manufacture, maintenance, inspection, repair, and bogus parts; airline operational safety, including pilot training; airport security and funding; aging aircraft; and airline accident and incident rates. Relates safety concerns to the bureaucratic inertia engendered by the FAA's dual role of safety oversight and airline promotion. Includes chapters on the ValuJet Flight 592 and TWA 800 aircraft accidents.		Pub Year:	1997
			Price:	\$25.00
1126	HANDBOOK OF TRANSPORTATION ENGINEERING	AUTHOR: Kutz, M.	Edition:	
	DESC: Provides tools for increasing the efficiency, performance, capacity, or safety of any transportation system.		Pub Year:	2004
			Price:	\$150.00
1128	HANDBOOK OF AIRLINE MARKETING	AUTHOR: Gail F. Butler, Martin R. Keller	Edition:	
	DESC: Describes marketing and marketing management in the air transport industry. Explores global air transport in transition; meeting the new service challenges; pricing the product; the distribution dilemma and its challenges; perils, pitfalls, and profits of global alliances and other strategic choices; and route structure and schedule development.		Pub Year:	1998
			Price:	\$69.00
1130	RAPID DESCENT: DEREGULATION AND THE SHAKEOUT IN THE AIRLINES	AUTHOR: Peterson/Glab	Edition:	
	DESC: This book discusses deregulation's effect on the financial standings of the airlines. It provides a lively look at the movers and shakers whose decisions contributed to the financial woes and even the demise of some airlines, and shows how others emerged triumphant during the turbulent post-deregulation era.		Pub Year:	1994
			Price:	\$25.00
1139.04	AVIATOR'S GUIDE TO NAVIGATION, THE	AUTHOR: Clausen, Donald J.	Edition:	4TH EDITION
	DESC: Provides experienced pilots and aviation students with a complete tutorial on modern navigation systems. From the basics of dead reckoning to the most advanced "glass cockpit" EFIS systems, the fourth edition explains the full range of air navigation innovations, covering all the new technologies and tools that have emerged in the past ten years, including distance measuring equipment (DME), long-range navigation, and The Next Generation Navigation System..		Pub Year:	2007
			Price:	\$36.95
1140.03	AVIATOR'S GUIDE TO GPS	AUTHOR: Clarke	Edition:	3RD EDITION
	DESC: Covers the history of the NAVSTAR Global Positioning System and the theory behind GPS operation, detailing the accuracy and limitations of GPS. Discusses GPS military and civilian applications; alternative navigational systems including LORAN-C; GPS receivers; terminology; and the future of GPS.		Pub Year:	1998
			Price:	\$29.95
1142	TURBULENT SKIES: THE HISTORY OF COMMERCIAL AVIATION	AUTHOR: Heppenheimer	Edition:	
	DESC: Chronicles the history of America's \$200 billion aviation industry, from the barnstormers to Boeing. Also explores the connection between government and business in the development of aviation.		Pub Year:	1995
			Price:	\$24.95

1144	FLYING THROUGH TIME	AUTHOR: Various DESC: A financial and historical overview of the global and major airlines.	Edition: Pub Year: 1993 Price: \$20.40
1145.02	HANDBOOK OF AIRLINE ECONOMICS	AUTHOR: Jenkins DESC: This collection of numerous articles written by the leaders of the airline industry focuses on such topics as airports, financing, airline operations, aircraft economics, air traffic management systems, public policy, labor relations, marketing, and safety.	Edition: 2ND EDITION Pub Year: 2002 Price: \$59.00
1146	STRATEGIC MANAGEMENT IN THE AVIATION INDUSTRY	AUTHOR: Delfmann/Baum/Auerbach/Albers DESC: Comprehensive overview of current strategic challenges and measures required to meet those challenges in a dynamic industry. Includes chapters on alliance management and formation, strategic issues for air freight carriers and airport companies, as well as impacts the airline industry exerts on its environment.	Edition: Pub Year: 2005 Price: \$79.72
1147	AIRPORT MARKETING	AUTHOR: Jarach, D. DESC: Examines the new management vision of airport marketing in the post-September 11th environment, presenting in-depth analysis of current airport management practices for both aviation-related and non-aviation-related activities.	Edition: Pub Year: 2005 Price: \$49.47
1150.02	A&P TECHNICIAN GENERAL - FAA AIRMEN KNOWLEDGE TEST GUIDE	AUTHOR: FAA Staff DESC: Sample questions with answers and references for the General, Airframe, and Powerplant oral and practical tests.	Edition: Pub Year: 2002 Price: \$13.95
1151	GENERAL AVIATION WEATHER ACCIDENTS: AN ANALYSIS AND PREVENTIVE STRATEGIES	AUTHOR: DESC: This study, encompassing the time frame from 1982-1993, takes a comprehensive approach in addressing general aviation accidents involving many different types of weather. It looks at the kinds of pilots typically involved in adverse-weather scenarios, the classes of airplanes they flew, and the affect of light and flight conditions.	Edition: Pub Year: 1996 Price: \$24.95
1175.07	AIM/FAR 2007: AERONAUTICAL INFORMATION MANUAL/FEDERAL AVIATION REGULATIONS	AUTHOR: Spence, Charles F. DESC: Includes federally required rules and regulations from the Transportation Security Administration for general aviation flying. Also the latest civil aviation rules from the FAA and all pertinent sections of the Federal Aviation Regulations plus the complete Aeronautical Information Manual.	Edition: Pub Year: 2007 Price: \$19.95
1176	HANDBOOK OF AIRLINE STRATEGY: PUBLIC POLICY, REGULATORY ISSUES, CHALLENGES & SOLUTIONS	AUTHOR: Aviation Week DESC: Deals with the challenges faced by the airline industry, potential solutions to those challenges, and strategic and public policy issues.	Edition: Pub Year: 2001 Price: \$119.00
1182	AIRPORT SYSTEMS PLANNING, DESIGN, AND MANAGEMENT	AUTHOR: De Neufville/Odoni DESC: A definitive resource on the planning, design, and management of airports.	Edition: Pub Year: 2003 Price: \$95.00
1183	AIRPORT DESIGN AND OPERATION	AUTHOR: Kazda A./Caves R. DESC: Explains principles and relationships important for the design of airport facilities, for airport management and for the safe and efficient control of operations.	Edition: Pub Year: 2000 Price: \$89.00

1199	IMPROVING AIR SAFETY THROUGH ORGANIZATIONAL LEARNING	AUTHOR: Sanchez, Jose	Edition:	
	DESC: The key theme of this book is organizational learning and its consequences for the field of air safety. Air safety rates have been improving for a long time, demonstrating the effects of a good learning model at work. However, the pace of improvement has almost come to a standstill. Improving Air Safety through Organizational Learning explains this situation as being the consequence of a development model supported chiefly by information technology being introduced as an alternative to human operators, and offers a new development model, one that makes strong use of technology but at the same time questions every step and suggests possible ways to recover the lost learning capacity.		Pub Year:	2007
			Price:	\$99.95
1203	CLEARED FOR TAKE-OFF: STRUCTURE & STRATEGY IN THE LOW FARE AIRLINE BUSINESS	AUTHOR: Lawton, Thomas C.	Edition:	
	DESC: Includes a step-by-step approach to understanding the conditions & choices shaping airline competitiveness and the nature of the low fare market; a study of the LFA sector's evolution and growth; insight into the success of low fare market leaders in Europe, North America and Australasia; as well as perspectives on strategic management principles and practices in modern airline companies.		Pub Year:	2002
			Price:	\$79.95
1204	AIRLINE COMPETITION: DEREGULATION'S MIXED LEGACY	AUTHOR: Williams, George	Edition:	
	DESC: Study of the international low fare airline (LFA) business, its market, industry context, structures and strategies of its main protagonists; examines conditions and choices that shape competitive advantage for LFAs; assesses the evolution and organizational structure of leading LFAs in Europe, North America and Australasia.		Pub Year:	2002
			Price:	\$74.95
1205.02	PERFORMANCE, STABILITY, DYNAMICS, AND CONTROL OF AIRPLANES	AUTHOR: Pamadi, Bandu N.	Edition:	2ND EDITION
	DESC: Presents basic principles of aerodynamics, aircraft performance, static equilibrium and control in steady flight. Deals with aircraft dynamics and decoupled equations for longitudinal and lateral motion, and introduces the concept of stability derivatives. Discusses design of stability augmentation systems and autopilots, aircraft response and methods of closed-loop control of aircraft, as well as problems of inertial coupling, aircraft spin, and high angle of attack.		Pub Year:	2004
			Price:	\$76.97
2005.06	PUBLICATION MANUAL OF THE AMERICAN PSYCHOLOGICAL ASSOCIATION	AUTHOR: APA	Edition:	6TH EDITION
	DESC: Provides guidance on all aspects of the writing process, from the ethics of authorship to the word choice that best reduces bias in language. Also offers guidance on choosing headings, tables, figures, and tone that will result in strong, simple, and elegant scientific communication. The sixth edition significantly expands guidance on ethics, statistics, journal article reporting standards, electronic reference formats, and the construction of tables and figures.		Pub Year:	2010
			Price:	\$26.06
2007	BUSINESS AND CORPORATE AVIATION MANAGEMENT	AUTHOR: Sheehan, John J.	Edition:	
	DESC: Provides a solid background and insights into establishing and running aviation operations.		Pub Year:	2003
			Price:	\$37.46
2009	FUNDAMENTALS OF AVIATION LAW	AUTHOR: Speciale, R.	Edition:	
	DESC: A comprehensive introduction to aviation law that covers every important area where law and aviation intersect.		Pub Year:	2006
			Price:	\$79.95
2010	AIR COMMERCE AND THE LAW	AUTHOR: Dempsey & Gesell	Edition:	
	DESC: A history and analysis of commercial aviation laws, regulations and policies. Contains a historical review of the genesis and evolution of transportation regulation and deregulation, exploring the causes and effects of both.		Pub Year:	2004
			Price:	\$69.00

2011.02 GENERAL AVIATION LAW

AUTHOR: Eichenberger

DESC: This readable, logically organized legal reference explains what you need to do, what you need to know, and what you should watch out for as you go about the business of flying. It discusses such topics as negligence liability, product liability, aviation insurance, and FAA enforcement procedures.

Edition:	2ND EDITION
Pub Year:	1997
Price:	\$34.95

2012.04 AVIATION AND THE LAW

AUTHOR: Gesell/Dempsey

DESC: Provides aviation students with a basic understanding of law, of the legal system, and of how the principles of law may be applied to the many aspects of air commerce and air transportation. Includes updates on the federal aviation security provisions since September 11, 2001, expansion in the area of international air law, as well as noted court cases. Companion text to "Air Commerce and the Law."

Edition:	4TH EDITION
Pub Year:	2005
Price:	\$89.00

2015.05 ADMINISTRATION OF PUBLIC AIRPORTS, THE

AUTHOR: Gesell/Sobotta

DESC: This text is directed at students of aviation management, particularly airport management. It includes chapters on airport systems, facilities, planning and development, environment, economics, finance, and operational safety, among others.

Edition:	5TH EDITION
Pub Year:	2007
Price:	\$89.00

2025 CIVIL JET AIRCRAFT DESIGN

AUTHOR: Jenkinson/Simpkin/Rhodes

DESC: A comprehensive introduction to the modern process of designing transport aircraft from the preliminary stages of conceptual design to detail design of major aircraft components, including cost analysis and optimization.

Edition:	
Pub Year:	1999
Price:	\$54.57

2026.04 AIRCRAFT DESIGN: A CONCEPTUAL APPROACH

AUTHOR: Raymer, Daniel P.

DESC: This text offers aircraft designers, design managers, and design instructors an industry perspective on the new aircraft concept development process, which consists of design layout and design analysis. It covers every phase of conceptual design, including configuration layout, payload considerations, aerodynamics, propulsion, structure and loads, weights, stability and control, handling qualities, performance, cost analysis, and tradeoff analysis.

Edition:	4TH EDITION
Pub Year:	2006
Price:	\$105.95

2030.02 ANATOMY OF THE AIRPLANE, THE

AUTHOR: Stinton, Darrol

DESC: This British text discusses aircraft design in terms of aerodynamics, propulsion, land and water operation, and structural arrangement.

Edition:	2ND EDITION
Pub Year:	1998
Price:	\$50.97

2032.05 AIRPORT PLANNING AND MANAGEMENT

AUTHOR: Wells/Young

DESC: Revised & updated to reflect post-9/11 industry changes. Covers planning & managing techniques, new technologies, statistics, trends, and regulatory issues. Offers guidance on airport site selection, design, access, financing, law & regulation, security, capacity, technological advances & other issues essential to the development & management of airports.

Edition:	5TH EDITION
Pub Year:	2004
Price:	\$45.00

2037.03 FLYING OFF COURSE: THE ECONOMICS OF INTERNATIONAL AIRLINES

AUTHOR: Doganis

DESC: This book provides insight into the economics and operation of international airlines. It examines the operating practices and management concepts that deregulation has prompted in the international airline industry. Emphasis is on the apparent contradiction between the industry's rapid growth and its marginal profitability.

Edition:	3RD EDITION
Pub Year:	2002
Price:	\$32.95

2038 BUSINESS COMMUNICATION TODAY

AUTHOR: Wolfe/NewMyer

DESC: Learn to write business messages quickly, easily, and effectively with a three-step process. Provides a solid foundation for solving communication problems and creating well-crafted business messages.

Edition:	7TH EDITION
Pub Year:	2003
Price:	\$35.00

2039.08 BUSINESS RESEARCH METHODS

AUTHOR: Cooper/Schindler

DESC: With the guidance of this newly revised classic textbook, the reader will develop the skills necessary to produce and report business findings. Includes a strong blend of theory and real-world practice to explain which research methods are appropriate for a given scenario, and how research affects decision making.

Edition:	8TH EDITION
Pub Year:	2003
Price:	\$103.75

2051.04 INTERMODAL FREIGHT TRANSPORTATION

AUTHOR: Muller

DESC: A description of the development of the intermodal freight transportation industry, including important advances that have occurred in the last few years.

Edition:	4TH EDITION
Pub Year:	1999
Price:	\$45.00

2052.01 HANDBOOK OF AIRLINE FINANCE

AUTHOR: Aviation Week

DESC: Third in Aviation Daily's Executive Handbook series, follows up on the successes of the first two books, Handbook of Airline Economics (RAC #1145) and Handbook of Airline Marketing (RAC#1128). Chapters include: Aviation Financial Markets at Century's End; Measuring Airline Profitability; Valuing Airline Code Share Alliances; A Case Study; Aircraft Asset Value Management; Fuel Price Risk Management; lots more.

Edition:	1ST EDITION
Pub Year:	1999
Price:	\$77.00

2055.01 HANDBOOK OF AIRLINE OPERATIONS

AUTHOR: Butler, Gail F.; et al., eds

DESC: A collection of essays covering all aspects of airline operations: global air transport, safety and risk assessment, decision making, strategies and competitive advantage, maintenance variables, aviation infrastructure and future demands.

Edition:	1ST EDITION
Pub Year:	1999
Price:	\$105.00

2060.03 HANDBOOK OF PROJECT-BASED MANAGEMENT, THE

AUTHOR: TURNER, J. Rodney

DESC: A guide to project management practice for the twenty-first century. Features tools for managing project performance and process; new focus on achieving strategic change; information on the project life cycle; new applications to different industries; material on strategic design, stakeholders, and organizational capability; and the shift in emphasis from administrative procedures to governance.

Edition:	3RD EDITION
Pub Year:	2009
Price:	\$76.46

2065.04 FUNDAMENTALS OF AEROSPACE MEDICINE

AUTHOR: Davis/Johnson/Stepanek/Fogarty

DESC: Provides information on the physiology of flight, the hazards of flight, and the selection and health maintenance of those who fly and facilitate such activities. New to this edition are chapters on Radiation, Toxicology, Emerging Infectious Disease, Dental, and Women's Health. The new section on the future discusses the governments' role in aerospace and commercial space activities.

Edition:	4TH EDITION
