

# FAA Runway Incursion Data

---

## *Runway Incursion Data FY 1999 through FY 2002*

### Introduction

This document contains runway incursion data for all U.S. towered airports from FY 1999 through FY 2002 and includes the following for each airport:

- *The yearly number and rate of runway incursions*
- *The yearly severity trends of runway incursions*
- *The number of surface incidents*

To navigate within this document, simply scroll down and/or display the bookmarks in the left window.

The data presented is identical to *Table 4* in the Appendix of the July 2003 FAA Runway Safety Report. However, the data in this document has been divided into four sorted appendices in order to provide a variety of ways to navigate through the airports, regions, and states of interest. The appendices are sorted as follows:

- **Appendix A: Sorted alphabetically by U.S. State / Territory**  
Within each State, the airports are sorted alphabetically by the airport name (e.g. *Los Angeles International Airport*). To find the airport of interest, simply locate the State where the airport is located.
- **Appendix B: Sorted alphabetically by FAA Region**  
Within each of the nine FAA Regions, the airports are sorted alphabetically by the airport's three-letter code (e.g. *LAX* for Los Angeles International Airport). To find the airport of interest, simply locate the FAA Region where the airport is located.
- **Appendix C: Sorted alphabetically by Airport Name**
- **Appendix D: Sorted alphabetically by Airport Code**

---

*Note: The names, locations, and spelling of airports were obtained from the airport's official web site; the ICAO/IATA Airport Code web site ([www.ar-group.com](http://www.ar-group.com)); and/or AirNav.com*

**Appendix A**  
**FY 1999 through FY 2002 Runway Incursion Data by Airport**  
**(Sorted alphabetically by State)**

Annual number, rate, and severity of runway incursions (RI) and the annual number of surface incidents (SI) for U.S. towered airports from FY 1999 through FY2002 are presented in the following table. Rates are given per 100,000 operations.

Definition of Table Headers:

- State:* Denotes the State where the airport of interest is located
- Airport, City (Airport Code):* Denotes the airport name, city location, and airport code
- Region:* Denotes the FAA geographical region where the airport is located
- Severity:* Identifies the corresponding RI category for each airport
- Total RI's/SI's:* Denotes the number of Runway Incursions (RI) and Surface Incidents (SI)
- Annual RI Rate:* The Annual Rate of Runway Incursions per 100,000 operations at each airport

**Appendix B**  
**FY 1999 through FY 2002 Runway Incursion Data by Airport**  
**(Sorted alphabetically by Region)**

Annual number, rate, and severity of runway incursions (RI) and the annual number of surface incidents (SI) for U.S. towered airports from FY 1999 through FY2002 are presented in the following table. Rates are given per 100,000 operations.

Definition of Table Headers:

- Region:* Denotes the FAA geographical region where the airport is located
- Airport Code:* Denotes the three-letter airport code
- Airport, City (Airport Code):* Denotes the airport name, city location, and airport code
- State:* Denotes the State where the airport of interest is located
- Severity:* Identifies the corresponding RI category for each airport
- Total RI's/SI's:* Denotes the number of Runway Incursions (RI) and Surface Incidents (SI)
- Annual RI Rate:* The Annual Rate of Runway Incursions per 100,000 operations at each airport

**Appendix C**  
**FY 1999 through FY 2002 Runway Incursion Data by Airport**  
**(Sorted alphabetically by Airport Name)**

Annual number, rate, and severity of runway incursions (RI) and the annual number of surface incidents (SI) for U.S. towered airports from FY 1999 through FY2002 are presented in the following table. Rates are given per 100,000 operations.

Definition of Table Headers:

- Airport, City (Airport Code):* Denotes the airport name, city location, and airport code
- State:* Denotes the State where the airport of interest is located
- Region:* Denotes the FAA geographical region where the airport is located
- Severity:* Identifies the corresponding RI category for each airport
- Total RI's/SI's:* Denotes the number of Runway Incursions (RI) and Surface Incidents (SI)
- Annual RI Rate:* The Annual Rate of Runway Incursions per 100,000 operations at each airport

**Appendix D**  
**FY 1999 through FY 2002 Runway Incursion Data by Airport**  
**(Sorted alphabetically by Airport Code)**

Annual number, rate, and severity of runway incursions (RI) and the annual number of surface incidents (SI) for U.S. towered airports from FY 1999 through FY2002 are presented in the following table. Rates are given per 100,000 operations.

Definition of Table Headers:

- Airport Code:* Denotes the three-letter airport code
- Airport, City (Airport Code):* Denotes the airport name, city location, and airport code
- State:* Denotes the State where the airport of interest is located
- Region:* Denotes the FAA geographical region where the airport is located
- Severity:* Identifies the corresponding RI category for each airport
- Total RI's/SI's:* Denotes the number of Runway Incursions (RI) and Surface Incidents (SI)
- Annual RI Rate:* The Annual Rate of Runway Incursions per 100,000 operations at each airport
